SIR W. J. HOOKER'S REPORT ON KEW GARDENS.

Sir,

Royal Gardens, Kew, W., 1 January 1863.

AS was anticipated, the number of visitors to the Royal Gardens, last year, exceeds that of any previous one, being 550,132, or 70,062 more than in 1861; an increase mainly due to the foreigners, who came to see the International Exhibition, or who held office there. The necessary arrangements having been made to meet the expected throng, there was no crowding; and the cases of improper conduct were fewer than ever, as remarked to me by the police constables.

The completion of the grand centre of the Winter Garden, and the duties which the International Exhibition more especially entailed, have caused the labours of the past year to be unusually heavy. On the other hand, their results have been beyond all proportion remunerative; for the Colonial Collections of Vegetable Products, especially the superb series of Timbers and Ornamental Woods, presented to us from the International Exhibition, far more than repay the services we were enabled to render to that undertaking.

I. BOTANIC GARDEN.

No new buildings have been erected during the past year; but seven of our largest Tropical and Temperate Houses have been re-arranged, some of them twice, as follows:—

1. The ARCHITECTURAL HOTHOUSE, near the Grand Entrance, which though fitted with a costly stove-heating apparatus has hitherto been used as a greenhouse for Colonial trees and shrubs. Its contents, having been transferred to the Winter Garden, are replaced by our Aroids and other tropical large-leaved climbers, whose singular habit, magnificent foliage, and other peculiarities not only render them eminently adapted to this house, but are such as to arrest the attention of visitors on entering the Gardens.

2. The OLD ORANGERY, long condemned as utterly unsuited to the cultivation of plants, has also been cleared, and its contents transferred to the Winter Garden.

3. The PALMHOUSE.—Here a large number of Palms and other Plants of Temperate Climates better suited to the Winter Garden, have long been accommodated, and had attained a great size. Their removal necessitated a complete re-arrangement of all the other tubed and potted Plants, and occupied five months; it also gave an opportunity for disposing differently the Plants in the Wings, which are now placed in two parallel lines with an intermediate central walk.

4. The ORNAMENTAL GREENHOUSE, No. 10, has been relieved of its larger inmates, especially the Australian Acacias, &c., which are now placed in the Winter Garden. Thus increased accommodation is gained for flowering Plants.

5. The STOVEHOUSES, No. 19 and 21, which formerly contained chiefly Orchids, and the Aroids, &c., now grouped in No. 1, have both been twice filled and emptied. They are eminently adapted to our yearly increasing collection of tender small Palms and Cycads, &c., from our East Indian Possessions, and West Indian and West African Colonies.

6. The COLLECTION OF BULBS, from the Cape of Good Hope, augmented during the past year by a magnificent donation from W. Wilson Saunders, Esq., F.R.S., has been accommodated in the Pits, built for rearing Cinchonas.

7. A large portion of the General Collection of Orchids, which has been steadily increasing for the last two years, is temporarily deposited in No. 18, pending further alterations necessitated by the augmentation of Flower-beds, contemplated during the present year.

As

As regards the general condition and ornamental appearance of the Shrubberies, Walks, and Flower-beds; the cutting-up of the gravel paths by the trucks and waggons, used in transporting Plants, and the employment of our men in this transport, have much prevented the usual progress of improvement in these parts.

Important contributors of Plants and Seeds have been Mr. Gustav Mann, our Collector in West Africa, Mr. Oldham, our Collector in Japan, Dr. Lyall, R.N., in British Columbia, Mr. Schiller, of Hamburg (Orchids); and W. Wilson Saunders, Esq., whose magnificent gift of Bulbs has been already noticed; also Mr. Hoey has sent us large collections of Plants from Japan.

In my two last Reports I described the assistance afforded by us in introducing *Cinchona* Plants into our foreign Possessions, namely, to India, where Mr. Markham's exertions have achieved remarkable success, and to Ceylon, and the West Indian Colonies by the Royal Gardens. The following is a concise statement of the results:

	Plants.
On the Neilgherries,* under charge of Mr. M ^r Ivor	72,568
In the Sikkim Himalaya, under Dr. Anderson	2,000
In Ceylon, under Mr. Thwaites, about	3,000

The accounts from Jamaica, under Mr. Wilson, and Trinidad, under Mr. Cruger, are both very favourable.

II. ARBORETUM AND PLEASURE GROUNDS.

WINTER GARDEN.—The most important work in this Department is the completion of the Grand Centre (212 feet long, by 137 feet broad, and 60 feet high) from the designs of Mr. Decimus Burton, by which the space between the two Octagons, built last year, is filled.

The area it encloses has been laid out in oblong beds, intersected by broad parallel paths. Under the loftiest part the trees are planted in straight lines, forming avenues of *Araucarias*, Palms, Tree-ferns, &c., while the side beds contain *Rhododendrons*, *Acacias*, *Camillias*, *Magnolias*, *Myrtles*, *Banksias*, &c. Such were the delays in the completion of this building, that it was with extreme difficulty the Plants were housed before cold weather set in; their planting out in the beds, indeed, is still unfinished.

A very extensive belt of Trees and Shrubs is now planted, in order to screen the town of Brentford, and the unsightly buildings connected with its new docks and railway terminus, from the beautiful walk that skirts the grounds. To effect this, between five and six acres have been prepared, and 8,750 vigorous young Trees and Shrubs planted. Thanks to the care with which the Plants in our Nursery have been husbanded and increased, this work was accomplished without our making a single purchase.

The excavation of the Lake Bed having been carried far enough last year to allow of the construction of the conduit communicating with the Thames, the water was let in early last spring, but was afterwards drawn off again, as it was necessary to cart the gravel for the terrace and the interior of the Winter Garden. A considerable quantity still remains to be removed for the same purposes.

The Plantation in the Queen's Garden, and that on the mound at the end of the Syon House Avenue, have been greatly improved, and are in a very flourishing state.

Lodges have been erected at the Brentford and the Lion Gates, in anticipation of the Arboretum being thrown open to the public during the winter.

NURSERIES.—The one which supplies our own grounds is well stocked with young and healthy Plants; and that which provides Trees and Shrubs for the Metropolitan Parks is in an equally good condition.

III. SCIENTIFIC DEPARTMENT.

MUSEUMS.—In no previous year have the donations to these buildings been so numerous and valuable; they have chiefly been derived from the International Exhibition. Thanks to his Grace the Duke of Newcastle, Secretary of State for the Colonies, and to the general appreciation of our Museums by the respective Governors and by the Colonists themselves, almost the whole of the Vegetable products of our more important Dependencies have been transferred to the Royal Gardens. In many instances the collections were made and sent with a special view to this destination. It is impossible to exaggerate their general value. Those especially of Tasmania, of Victoria, and North, South, and West Australia, Queensland, Canada, Guiana, Natal and Dominica, were formed at great labour and cost, under the immediate direction of men of scientific attainments and excellent practical knowledge, who have attached the proper names to every specimen, and added a vast amount of serviceable information

* While this report is in the press, information has reached me from India to the effect that the number of *Cinchona* Plants in cultivation in the Neilgherries alone, amounts to 117,706.

information on the uses, qualities, and abundance of the woods, in their annexed reports. The specimens are of large size, selected from sound Trees, and cut with great judgment, partially polished, and often of uncommon beauty. As our existing Museums cannot accommodate the above fine collections of Woods, the Board have under consideration how they can be most advantageously placed. With what we already possess, they form a very complete series of the known timbers of those countries. Other donations are, Fruits from Venezuela; Vegetable Oils and Varnishes from Messrs. G. and T. Wallis; Perfumes from Messrs. Piesse; Preserved fruits from Messrs. Fortnum and Mason; Box-wood prepared for engraving from Mr. R. J. Scott; and illustrations of the process of manufacturing toys by turnery in Leipsic, from Prof. Reichenbach, jun.

One of the most remarkable donations is that of Vegetable Substances, illustrating the customs and food of the inhabitants of the ancient lake dwellings of the prehistoric races of Switzerland; a highly curious collection, presented by Prof. O. Heer of Zurich. Also two valuable marble busts (by Woolner) have been presented to the Museum, one by Miss Henslow, of her late brother, the Rev. Prof. Henslow; the other is presented by Henry Christy, Esq., F.L.S.

HERBARIUM AND LIBRARY.—In consequence partly of the active exertions of the Fellows of the Horticultural Society, and the fine exhibition of rare plants, and of European and American Vegetable products which they instituted, an unusually large number of Plants have been sent to the Herbarium to be named; and there was an almost incessant demand for information from exhibitors in the International Exhibition, and others.

No fewer than 40 Botanists have pursued their studies in the Herbarium during the past year, including many distinguished travellers and men of science, and others engaged in important botanical and pharmaceutical researches.

The additions to the Herbarium have been very large, and include:—

1. The British Herbarium of the late William Borrer, Esq., F.L.S., which represents the rise and progress of the Botany of the British Isles through upwards of half a century, and is unquestionably the fullest and finest in existence. Presented by his widow.
2. The Australian Herbarium of the late Allan Cunningham, Colonial Botanist, formed during 30 years of exploratory voyages and journeys through Australia. It includes his New Zealand, Timor, and Norfolk Island Plants, together with all his botanical MS. and journals; a most important contribution, presented by Robert Heward, Esq., F.L.S.
3. The unrivalled collection of British Seaweeds, formed during a long life devoted to that order of Plants, by Mrs. Griffiths of Torquay. Presented by Miss Burdett Coutts.

Other Herbarium specimens have been received from 35 botanists and collectors. The chief are:—

1. Large collections, full of novelty, from the Cameroon Mountains and Gaboon River; Mr. G. Mann, Government Botanist.
2. Livingstone's expedition, Plants and Drawings; Dr. Kirk and Dr. Meller.
3. Madagascar; Dr. Meller, when accompanying the Embassy to King Radama.
4. Algeria; M. Cosson of Paris.
5. Abyssinia; M. Franqueville.
6. Aden and Soumali Country, drug and balsam-yielding Plants; Captain Playfair.

7. *Upper Nile and Soudan*; Consul Petherick.
8. *Niger River*; Dr. Bakie.
9. *Loanda and Benguela*; Dr. Welwitsch, including the *Welwitschia*, the most remarkable Plant of modern times, of which specimens arrived in the same year from Dr. Welwitsch and Mr. Monteiro from Cape Negro, and from Mr. Baines and Mr. Andersson from *Waalvisch Bay, Damara Land*.
10. *Punjaub*; Dr. Aitchieson.
11. *N. W. Himalaya*; Dr. Stewart.—*Moulmeine*; Rev. W. Parish.
12. *Ceylon*; G. H. K. Thwaites.
13. *Australia*; Dr. Mueller, Sir Stuart Donaldson, Mr. Hill, Mr. Moore, &c.
14. *New Zealand*; the late Dr. Sinclair, Dr. Haast, Mr. Travers, Dr. L. Lindsay.
15. *Sandwich Islands*; Dr. Hillebrand.
16. *New Caledonia*; Mr. Le Normand.
17. *Fiji Islands*; Mr. Storke.
18. *British Columbia*; Dr. Lyall.
19. *Dominica*; Dr. Imray.
20. *Cuba*; M. de Franqueville.
21. *Trinidad*; Mr. Cruger.
22. *Panama*; Mr. Sutton Hayes.

Also various collections from the Universities, Botanical Gardens, &c., of *St. Peter sburg, Upsala, the Smithsonian Institute, &c., &c.*

The books published in this Herbarium during the past year have been:—

1. *The Genera Plantarum, Pt. I.*, by G. Benthams and the Assistant-Director.
2. *The Botanical Magazine*, and—
3. *The Species Filicum*, by the Director.
4. *A Memoir on Welwitschia*, by the Assistant-Director, with 14 plates; the expense of transferring which to stone was paid from the grant annually placed at the disposal of the Royal Society for the Promotion of Science.

Various Botanical papers on the collections received have been contributed to the *Linnean Society* by Mr. Benthams, by the Assistant-Director, and Prof. Oliver, the Librarian.

The new publications commenced are, *A Flora of all the Australian Colonies* by Mr. Benthams, and a *Manual of New Zealand Botany* by the Assistant-Director; both to be published by the Government of the respective Colonies.

The distribution of duplicate-named specimens has been very large, amounting to upwards of 30,000, sent to public and private Herbaria and Museums; this is exclusive of the *North American Boundary Line* collections of Dr. Lyall, amounting to upwards of 3,000, all named at Kew and distributed by himself, at the expense of the Admiralty.

In conclusion, I would here record our great obligations to the Secretaries of State for Colonial and Foreign Affairs, the Board of Trade, the First Lord of the Admiralty; and to the Peninsula and Oriental Steamship and other Companies, for essential aid in the transit of cases of Plants, &c., free or at reduced rates.

I have, &c.
(signed) W. J. HOOKER,
Director.

To the Right Honourable William F. Cowper, M.P.,
First Commissioner of Her Majesty's Works,

Sir,

Her Majesty's Stationery Office, 29 November 1862.

I HAVE the honour to send herewith, for the information of the Lords of Her Majesty's Treasury, an Estimate of the sums that will probably be required to defray the expenditure of this Office for Paper, Printing, Binding and Stationery for the Public Service during the ensuing official year 1863-4. This Estimate amounts to 344,139 *l.*, being 1,490 *l.* in excess of the sum (342,649 *l.*) voted for the service of the current year. I believe I may venture to assure their Lordships that this result has been arrived at with the greatest care. And though there must always be a good deal of conjecture in an Estimate of this sort, it being impossible to appreciate beforehand the circumstances that may conspire to increase or diminish expenditure, yet, on the whole, I believe it will turn out to be pretty near the mark.

The following comparative statement shows how the excess of 1,490 *l.* has arisen; viz. :—

ADDITIONS.		DEDUCTIONS.	
	£.		£.
Admiralty - - - - -	3,000	Houses of Parliament - - - - -	500
Foreign Office - - - - -	1,300	War - - - - -	5,710
Inland Revenue - - - - -	2,000	Post Office - - - - -	2,000
Patent Office - - - - -	3,000	Law Department - - - - -	1,260
Stationery Office Publications - - - - -	2,500	Registrar General - - - - -	650
Parliamentary Printing - - - - -	1,000	Census - - - - -	1,800
Miscellaneous Offices - - - - -	2,170	Miscellaneous Offices - - - - -	1,560
	£. 14,970		£. 13,480
Subtract Deductions - - - - -	13,480		
Net Increase - - - - -	£. 1,490		

There are no new items of charge in this Estimate.

ADDITIONS.

The increase in the Estimate for the Admiralty is owing to the increased demand for printing and binding. A large supply of books and forms are required for the new steam ships that are now being put in commission; and the paper used for such books and forms is, in general, of a thick and expensive quality, and is less susceptible of reduction than that used in most departments of the service.

The increased charge for the Foreign Office is in great measure nominal only. Previously to last year, a considerable portion of the confidential printing for the Foreign Office was charged in the account for Parliamentary Printing. But as it had frequently little or nothing to do with the latter, it was judged best to transfer it entirely to the account of the Foreign Office. Some portion of the increase is, also, owing to the increased demand for stores, books, &c. required for the Consulates in different parts of the East.

The increase in the Estimate for the Inland Revenue Department will probably suffice to meet the charge on its account. That, however, varies from year to year, principally according to the issue of forms for taxes. Thus, in the year ended 31st March 1861, the paper issued exclusively or principally for Income Tax forms cost 2,694 *l.* And in the year ended 31st March 1862, it amounted to 5,291 *l.* The reason of the increase is, that in the latter year there was a new assessment of the Income Tax. And hence it is probable, should a new assessment of the Income Tax, or any considerable change be made in other inland taxes in the course of the ensuing year, that there will have to be an additional charge of from 2,500 *l.* to 3,000 *l.* provided for the paper and printing required on that account. But as this is a point that remains to be determined, it would be improper to make any definite arrangement with regard to it in this place.

I mentioned in the letter which accompanied last year's Estimate, that efforts were being made in the Department of Inland Revenue to lessen the cost of forms, &c., and these efforts have been continued in the interval. The number of forms, their size, and the quality of the paper on which they are printed, have, in various instances, been considerably reduced. But a good deal still remains to be done in the way now stated.

The

The increased charge on account of the Patent Office requires no commentary. It is wholly occasioned by an increase in the printing and paper for that Department.

The increased charge on account of Stationery Office Publications consists entirely of the additional sum required to bring out the Sailing Directions for the Admiralty, and other works for the naval and military departments, the Master of the Rolls, &c. But the greater number of these publications, especially those for the Army, have a very good sale. And though the price of the military books belonging to Government has been very greatly reduced of late years, the Stationery Office publications yield, on the whole, a surplus after paying their expenses.

I may, however, mention that not satisfied with having publications sold at or about the cost of their production, we are frequently pressed by the parties interested to sell them at still lower rates. But this, I cannot but think, should very rarely be agreed to. The sale of a work for less than it cost deceives the Government, and is unjust to the publishing trade. The price of all, or nearly all, publications that issue from the different public departments, includes nothing for authorship or editing, but merely amounts to the cost of paper, printing and binding, and not always even to that. Hence the cheapness is in most cases quite factitious; but such as it is, it prevents private parties from entering into what might otherwise be an advantageous competition with official publications. A spurious cheapness of this sort is not to be encouraged; and I endeavour, in as far as practicable, to get such a price charged upon our books as will, at all events, cover our outlay upon them.

The trifling increase in the cost of Parliamentary Printing is a consequence of the increased amount of printing and paper required for that service. And the only thing to be wondered at is, considering the increase of work, that the increase of expense on its account has not been greater. This has been prevented, partly and principally, by a reduction in the weight of the paper, which has saved us above 3,000 £. in the course of last year, and by a more condensed style of printing. I fear, however, that we can do but little more in the former of these methods of reducing expense, for the weight of the papers used in printing is now, in most cases, as low as we can venture to make it. And it is farther to be borne in mind, that a reduction in the weight of paper, if carried beyond a certain limit, increases its price by making its manufacture more difficult. In some instances a good deal might still be done to diminish expense, by enforcing a greater degree of condensation. Most parties, however, who have anything to do with printing are anxious to have their Reports or Papers printed in large type, with leads, &c.; and if we give way in one instance it is sure to be quoted as a precedent, and we are called upon to do the like in scores of other instances. Hence we endeavour, in as far as practicable, to enforce our rules in favour of condensation and economy. The practice of printing evidence in smaller type in double columns is now all but universal, and has been productive of a very large saving.

The printing now going forward is immense. This will be evident in part from the following Return of the different Reports, &c. of Commissions that are now being printed by Her Majesty's printers, with the number of folio pages, double columns, of each in type on the 27th November 1862.

In many of these Reports, &c., the work now executed is but a small portion of what it will amount to when finished; and as some of them are illustrated by numerous plates, it is easy to see that their aggregate cost will be very great indeed.

It would be very desirable were something done, by the intervention of the Chairmen or otherwise, to lessen the cost of corrections; these are sometimes quite enormous, amounting to two or three times the original cost of putting the Report or Evidence into types. It is no doubt very difficult to deal with a matter of this sort. One, however, would think that some sort of limit might be set to hinder the process of correction from degenerating into an abuse.

On the whole, however, I am doubtful whether any material diminution of the cost of printing need be looked for unless its amount were lessened, and of this I apprehend there is very little prospect; on the contrary, the fair presumption seems to be, considering the increasing trade and relations of the Empire, and the demands for publicity, that the quantity of printing will progressively increase; and hence the necessity, if we would keep its expense within moderate limits, of having it carefully looked after, and of checking all unnecessary outlays. If this were to be neglected, even for a short time, the increased demands for better paper, and a more showy style of printing, would raise its cost to a sum of which it is not easy to imagine the magnitude.

DEDUCTIONS.

The large diminution in the expense of the War Department results from the approaching abolition of the charge for military libraries, it having been arranged that books should in future, with few exceptions, be supplied from an allowance to be made to parties on the spot, and it has also been in part occasioned by a great decrease in the demand for paper and stores for colonial and foreign stations.

The reduction on account of the Post Office is occasioned by the Savings Banks attached to that department having repaid us for their stationery, which it was not supposed would be the case. It is due to the Post Office authorities to state that they have on all occasions warmly seconded our efforts to economise; hence, though the business of the department be constantly on the increase, there is no proportional increase of the charge for stationery and printing; a result which is principally owing to a diminution in the size of official forms, and a reduction in the quality of the paper on which they are printed. This has enabled us to supply a much larger quantity of paper at the same or but little more cost.

The reduction in the Law Department is principally occasioned by a diminution in the amount of printing, and in the supply of books required for the Probate Court.

The reduction in the departments of the Registrar General and Census require no comment.

As regards the paper used for the correspondence of the different public offices, it continues to be nearly on the same footing it was a year ago. But I doubt whether this footing will be maintained. During the last few months some leading departments have been demanding supplies of a finer and more costly description of paper. Hitherto I have succeeded in resisting their demands, but it is probable that they will appeal to their Lordships. And should the demands of the offices referred to be conceded, it will not be an easy matter to resist the claims of other offices for the same sort of paper. And if this should happen and its use become general, we shall lose the entire advantage we have gained by the repeal of the duty on paper, and this Estimate will have to be considerably enlarged. It is doubtful, too, were the change effected, whether the complaints of the quality of paper would be materially lessened. It is very difficult to satisfy people with that which they obtain gratuitously; and, in point of fact, I do not find that the offices that have the least expensive paper furnished to them are so much disposed to complain as those that are furnished with that which is most expensive. Except in the case of the Foreign Office, and a few of the principal departments, I venture to think that very little paper should be supplied beyond machine-made foolscap, 14 lbs. to the ream. A few years ago my Lords decided that only 12 lbs. foolscap should be used in ordinary correspondence; but that limit has been gradually raised to 13 lbs., and in many instances, to 14 lbs., at which I trust it will be allowed to remain.

The plan of buying paper when it is wanted by invitations to tender, issued to the principal parties in the trade, continues to answer admirably well. The competition is much keener than it was when the contracts were for a year's supply. And while the paper costs us less we accumulate no useless stocks.

The plan approved by their Lordships of buying steel pens direct from the manufacturers without the intervention of middlemen has, I am glad to say, led to a very considerable saving in the outlay upon such pens.

But with this exception the expenditure for other descriptions of pens, and for penknives and other articles of cutlery, continues to be much the same as for the last three or four years. I would beg, however, to be permitted again to draw their Lordships' attention to this subject. The greater my experience the more am I convinced that pens, penknives, pencils, and such like articles, should not be supplied to any department of the

the public service ; they are not articles that can be properly contracted for, those that are well suited for Messrs. A. and B. being often quite unsuitable for Messrs. C. and D. ; and as it is impossible to meet the varying tastes and caprices of individuals, we have frequent complaints of articles even when their quality is unexceptionable ; and there is in addition a great deal of waste and misappropriation connected with their supply. Now this otherwise incorrigible abuse might be easily and effectually got rid of by making an allowance of some 5*s.* or 7*s.* 6*d.* a year, instead of pens, penknives, &c., to the clerks and others at present in the public service, and laying it down that all future entrants into the service should supply themselves with these articles. This would be an economical, and I believe a popular arrangement, and it would make an end of a perennial source of abuse and complaints.

The collection and sale of waste paper goes on as usual. The fall in its price, which took place during the earlier portion of the year, reduced of course the produce of the sales. More recently, however, the price of waste paper has risen to nearly its old level.

Hoping that these explanations may be satisfactory,

I have, &c.

Comptroller.

THE following is the scale of Salaries fixed by the Treasury for the Clerks of Assize and their Officers. Some of these persons receive higher emoluments, having been appointed before the passing of the Criminal Justice Act, 18 & 19 Vict. c. 126, by which the fees theretofore payable to Clerks of Assize in criminal cases, as Clerks of the Crown, were abolished. The fees to which these officers had been entitled in civil cases, as Associates, were not so abolished, and are retained in part payment of the salaries, Accounts of them being rendered to the Treasury; the sum so brought to credit in the year 1861 amounted to £. 3,069.

* No sum was provided last year for incidental expenses, as these were met by the receipts from the Board of Inland Revenue in payment for copies of wills furnished. Such copies will now be supplied gratuitously, as stated in the Estimate for the Inland Revenue Department, in which the provision under that head is this year omitted.

† The fees which had formerly been received by District Registrars for their own benefit were carried to the credit of the public, by means of stamps, from the 1st May 1861. This was, therefore, the amount of Stamp Duties for eight months.

* Until 30 June 1863 the annual grants falling due at the end of each school year (Article 17, Revised Code) in schools admitted to aid before 30 June 1862 are to be paid according to the Code of 1860. In Scotland grants continue to be made as before (Minute of 9th May 1862).

† Certified Industrial Schools now appear in the Estimate for Maintenance of Prisoners, &c., in Class iii., pursuant to Act 23 & 24 Vict. c. 108.

‡ This is a continuing charge, and must appear in future estimates. No further pensions are allowed.

§ Ten shillings per Scholar represents the rate of aid which the Royal Commissioners think that "the average of schools should have a reasonable prospect of earning" (page 345). The expenditure under the Revised Code which is to give this general result has to be made under certain conditions of attendance, age, and proficiency. In future years it may be possible to base Estimates upon such particulars; but until they have been furnished by experience, the Committee of Council has judged it better to calculate simply the number of Scholars, and multiply by that number the average rate recommended by the Royal Commissioners. It is estimated that, allowing for the greater number of Schools set down for inspection in the first half (which does not contain the harvest) of each year, and for arrears, one half of the annual grants falling in course of actual payment in the financial year 1863-4 will have to be made according to the Code of 1860, leaving one-half to be paid according to the Revised Code alone between 30 June and the end of the financial year.

* Formerly included under Estimate No. 1 of Part I. (*suprà*).

† Including grants of 1,000 l. to the National Society, and 750 l. to the British and Foreign Society, henceforth discontinued.

THE Account of Expenditure given in the following Notes and Tables is for the year ending 31 December 1862. The Estimate is for the year ending 31 March 1864; but the Notes and Tables are continued from January to December in each year. No sums appear as payments, except such as have been actually ordered to be issued within the year. The number prefixed to each Note corresponds with a number in the first column of the Estimate.

The whole of the expenditure in the year ending 31 December 1862 was made *under the Code of 1860*, and that Code alone is referred to throughout the following Notes.

1. The number of certificated teachers in charge of schools is 9,115; at the end of 1861 it was 8,698. The Grants on account of them range from 10l. to 30l. per annum, according to the class of the teacher's certificate, the salary provided by the managers, the state of the school, and the sex of the teacher.

The certificate of every teacher in a school under inspection is revised at intervals of five years, and is raised or lowered according to the character of the intermediate Reports.

2. The total number of Pupil Teachers is 15,752; at the end of 1861 it was 16,277. The number of Pupil Teachers admitted in 1850 was 2,926; in 1861, 2,984; in 1862, 2,762. The Pupil Teacher's stipend begins at 10l., and rises by 2l. 10s. per annum, to 20l. The schoolmaster or schoolmistress has the benefit of the Pupil Teacher's services in the school, and also receives a gratuity ranging from 3l. to 5l. for the special instruction of each Pupil Teacher, according to the number engaged. The period of service is for five years.
3. The number of assistant teachers, retained for *three years after the end* of their apprenticeship, is 449; at the end of 1861 it was 381. They receive 25l. if males, and 20l. if females, per annum.
4. The capitation Grants, ranging from 3s. to 6s. per annum upon each child who has attended school for 176 days during the year preceding inspection, have been paid in schools throughout the rural districts and in the smaller unincorporated towns, since 1 January 1854, and, since 1 July 1856, have been extended to all parts (urban as well as rural) of England and Wales. The amount paid in 1861 was 77,239 l. 15 s. 11 d. on 316,226 children, being 42·75 per cent. of the children attending 5,199 schools; in 1862 the amount paid was 82,527 l. 4 s. 7 d. on 342,334 children, being 44·57 per cent. of the children attending 5,340 schools.

By the Minute of 26 July 1858, scholars above 12 years of age attending night schools on 50 nights per annum (such night schools being connected with day schools under inspection), may be reckoned for capitation grants. The amount of capitation paid in 1862 for 7,202 such scholars was 1,483 l. 4 s. 1 d. The number of night scholars, and the amount of capitation paid for them, are included in the number 342,334, and the sum 82,527 l. 4 s. 7 d.

5. Annual payments of 5l. or 10l. are allowed to teachers acting in night schools only; such teachers received 1,841 l. 2 s. 5 d. in the past year.
6. Certificated schoolmasters and schoolmistresses who have, upon examination in drawing, satisfied the Department of Science and Art, receive annual allowances ranging from 1l. to 3l., according to the extent of their proficiency, and the number and progress of their scholars. The number of such schoolmasters and schoolmistresses is 617; of pupil teachers, Queen's Scholars, and others, who have passed examinations in drawing, but are not yet certificated as schoolmasters or schoolmistresses, 7,781.
7. Grants for industrial purposes are made to common Elementary Schools; and 148 such schools, under Government inspection, have industrial departments (land, kitchens, laundries, or work-rooms) attached to them. The grants equal half the rent of any premises specially hired for the purpose; one-third of the cost of tools or raw materials for labour, and an allowance of 5s. or 2s. 6d. per industrial scholar, according as the managers employ special instructors, or only the ordinary schoolmaster or schoolmistress, in the industrial department. The total sum paid on account of such departments in 1862 was 1,820 l. 6 s. 7 d.
8. Besides the industrial departments annexed to common Elementary Schools, other schools in which labour forms a principal feature of the institution may receive grants. Schools of this latter class are for the reception of vagrants or other children of disreputable character. They receive the same grants as are made to the industrial departments of common schools, and the ordinary rate in augmentation of any certificated teacher's salary (special certificates being also granted for teachers

- teachers in such schools). The total number of schools aided in 1862 was 37; the total sum paid was 2,170*l* 7*s* 1*d*.; and the total number of children in these schools was 2,818.
9. The pensioners must have served 15 years in school, and their schools must have been, during seven of those years under inspection. Age or infirmity is a condition of every pension (30*l*. per annum being the maximum for an elementary teacher), and the pension may be withdrawn on proof of misconduct, or of sufficient means of livelihood from other sources. These pensions are not offered as a general provision for teachers, but as a form of aid to a limited number of schools, in order to facilitate the appointment of competent successors in the place of meritorious but disabled teachers. The number of pensioners at present is 33, and 19 have received gratuities (*not* to be renewed) on retirement.
11. The Grants for building, enlarging, or improving the fabrics of Elementary Schools amounted to 63,988*l* 6*s* 9*d*.; the sum voluntarily subscribed, to 175,355*l* 13*s* 1*d*.; the number of schools built, 159; enlarged or improved, 92; teachers' residences built, 129; the number of children for whom additional accommodation in school has been provided, 38,615. A Grant of 2,000*l*. has been paid for the erection of a Training College at Winchester, to accommodate 40 Students; sum subscribed by Promoters, 7,754*l* 1*s* 11*d*. The amount of outstanding liabilities for Building Grants awarded, but not yet claimed, is 41,010*l* 2*s* 4*d*.; a period of 18 months is allowed from the date of the award for claiming payment. The latter sum is exclusive of Grants to be awarded, and of which payment may be claimed, within the year 1863-64. The Grant to the Training College above mentioned arose out of an application entertained before 21 January 1860, at which date such grants were discontinued; see Report of the Committee of Council on Education, 1859-60, p. xxvi., and Code of 1860, Article 184.
12. The total number of students in Training Colleges at the end of 1862 was 2,972. The training may extend to three years, and may not be less than one year. At the end of each year all the students are examined before Her Majesty's Inspectors. A grant (varying from 13*l*. to 24*l*.) is allowed to the College for each student who passes the examination, according to his year, and according to the class in which he is placed. Two-thirds of these sums are allowed for female students. The number of students who passed successfully in the year 1862 was 2,779. In 1861 it was 2,631.
- The Queen's Scholarships are Exhibitions or Bursaries, tenable for two years, which pupil teachers who have completed their apprenticeship, and certain other qualified candidates, may obtain by competitive examination, and which are of sufficient amount to enable the holder to meet the demands made for residence and tuition in the Training Colleges. After the examination in December 1862, 1,783 were admitted for the first time, and 1,280 continued for a second year; total resident during 1863, 3,063. The total resident during 1862 was 2,731.
- The Lecturers are officers of the Training College, who pass an examination in the particular subject upon which they are to lecture, and receive 100*l*. per annum from the Committee of Council, on condition that the managers of the Training College provide 150*l*., and that the Inspector reports well of their practical powers in teaching at his annual visits to the Training College. The number of Lecturers hitherto passed is 42.
13. Annual Subsidies were awarded, in the earlier years of the Committee's administration, to the National School Society, to the British and Foreign School Society, and to the Education Committee of the General Assembly of the Established Church of Scotland, and were afterwards continued, but without increase, or extension to other societies; at the time when they were first awarded, the grants under Estimate No. 12, Part II., *supra*, had not been instituted. Such subsidies are not continued under the Revised Code.
14. The organization of the establishment is founded (with certain modifications, approved by the Lords of the Treasury) upon the Report of the Committees of Inquiry on Public Offices, presented (1854) to both Houses of Parliament, pp. 230-243.
- The total number of Elementary Day-schools visited by Her Majesty's Inspectors during 1862 was 7,569, and School-rooms under separate Teachers, 10,918. They found present, 1,057,426 children; the number found present in 1861 was 1,028,690. If 33,835 children inspected in 408 Poor Law Schools, and 2,818 children inspected in 37 Industrial Schools, be added, the total number of Schools inspected in 1862 was 8,014, and children, 1,094,079.

They were valued last year as worth several millions of pounds sterling. The Museum and Schools are lighted from sunset till 10 p.m., and the greatest precautions against fire are necessary. N.B.—The Gratuity to the Secretaries, for the year ending 31 March 1862, has been paid out of the balance appearing at foot of this account, thereby considerably reducing the amount of said balance; in addition to this, since the close of this account, the directors, with the object of extending the facilities for vaccination, have opened four new depôts in different parts of the city, and thus made the funds at their disposal liable to an increased demand, convinced that, by thus widely enlarging the field, the beneficent intention of the Executive will be more effectively and extensively carried into operation.

PUBLIC SCHOOLS.

Public Schools' Commission, 2, Victoria-street, S.W.,
27 November 1862.

Sir,

In answer to your letter of the 12th instant, I beg leave to refer, in the first place, to the Estimate furnished by me under date 28th Nov. 1861.

I estimate that the amount required to defray all the expenses of this Commission from its commencement to its termination, will be a sum not exceeding 2,200*l*.

The Commission bears date the 18th July 1861.

The Commissioners have received the answers of the authorities of the colleges and schools included in their inquiry to the questions issued by them as stated in my previous letter. They have personally visited the several colleges and schools, and have orally examined a considerable number of witnesses; but the evidence which they deem it important to obtain is not yet quite complete.

I hope that the Commissioners will be able to present their report in the course of the next spring or summer. The time necessary for the completion of the inquiry will probably therefore not exceed two years from its commencement.

G. Clive, Esq.

I have, &c.
(signed) *Montague Bernard*, Secretary.

Public Schools' Commission, 2 Victoria-street, S.W.,
23 January 1863.

Sir,

In answer to your letter of the 21st instant requesting to be informed what portion of the sum of 2,200 *l.*, mentioned in my previous letter dated 27th November last, will be required to defray the expenses of the Public Schools' Commission during such period of the ensuing financial year as the Commission may be in operation, I have to state that, assuming the duties of the Commission to terminate at the end of two years from their commencement on the 18th July 1861, and judging from the expenses already incurred by the Commissioners, viz., about 1,336 *l.* including the salaries of secretary, clerks and messenger, but exclusive of reporting which was not embraced in my original estimate, a further sum will probably be required of from 450 *l.* to 500 *l.* This sum, however, may possibly be a little exceeded.

H. Waddington, Esq.

I am, &c.
(signed) *Montague Bernard.*

(3.)

MINES INQUIRY.

86, Boulevard de Neuilly, Paris,
27 January 1863.

Sir,

I HAVE the honour to acknowledge your letter of the 21st inst. in which you state that you are directed by Secretary Sir George Grey, to request with reference to my letter of the 1st inst., that I will, as soon as possible, inform you what sum will be required to defray the expenses of the Mines Inquiry Commission during such period of the financial year, from the 1st April 1863 to the 31st March 1864, as the Commission may be in operation; in reply to which, I beg to state that the following sums will in all probability be required:—

	£.	s.	d.
Travelling, Hotel, Postage, Stationery and other Incidental Expenses	1,000	—	—
Salary of the Secretary	400	—	—
Salary of the Clerk	52	—	—
Shorthand Writers	400	—	—
Making a Total of	1,852	—	—

The expense of the shorthand writers during the last year amounted to 460 *l.*; I think, however, that during the next year that expense may be greatly reduced, and probably 300 *l.* may suffice. The most important district, the county of Cornwall, in which it was necessary to take the greatest amount of evidence has been thoroughly investigated. In the mining districts which remain to be examined, much less evidence will, I imagine, satisfy the Commissioners, and answer the end of the inquiry. I have not included printing, as I am not aware what the cost will be, and what arrangement may subsist between Her Majesty's Government and the Queen's printer.

H. Waddington, Esq.

I have, &c.
(signed) *R. Temple.*

(4.)

CHILDREN'S EMPLOYMENT.

Sir,

2, Victoria-street, 25 November 1862.

I AM directed by the Commissioners to acknowledge the receipt of your letter of the 12th instant, requesting me to prepare and transmit to you, as soon as possible, an estimate of the sum which will be required to defray all the expenses of the Commission of Inquiry into the Employment of Children and Young Persons in Trades and Manufactures not already regulated by law, from its commencement to its termination, accompanied by a statement of the date of the Commission, of the progress which the Commissioners have made in the inquiry entrusted to them, and of the probable time which it will take to complete the inquiry.

In reply, I am instructed to state, for the information of Secretary Sir George Grey, that the Commission was dated on the 18th February 1862; that the Commissioners commenced

commenced their sittings as soon as an apartment was ready for them, and that they have made considerable progress in the inquiry intrusted to them. Under their direction, the Assistant Commissioners, in the month of April, entered upon investigations into several very large and important manufactures, in which great numbers of children and young persons are employed. These investigations are now very nearly completed, and I am instructed to specify, for the information of Sir George Grey, the following cases in which evidence has been taken and is now printing, and to state, that the Commissioners entertain a confident hope that they will be able to present their Report on all those cases, not long after the meeting of Parliament.

The Potteries.

Paper-staining.

Lucifer Match-making.

Percussion Cap-making.

Lace-making.

Fustian-cutting.

In preparing an Estimate of the sum which will be required to defray all the expenses of the Commission, the Commissioners instruct me to say, that the total cost of the Commission must depend on the duration of its existence, and they are not yet in possession of sufficient information to enable them to speak with confidence as to the probable duration of the inquiry; they are inclined however to believe, that they will be in a position to make their final Report within three years from the date of the Commission; and assuming this anticipation to be well-founded, the sum which will be required to defray all the expenses of the Commission, from its commencement to its termination, will be about 5,700*l.*

George Clive, Esq., M.P.,
&c. &c. &c.

I am, &c.
(signed) P. Selby, Secretary.

Sir,

2, Victoria-street, 29 December 1862.

I HAVE the honour to acknowledge the receipt of your letter of the 26th instant, requesting me to state for the information of Secretary Sir George Grey, what portion of the sum of 5,700*l.* which the Commissioners have estimated as the probable total cost of this Commission from its commencement to its close, will be required during the ensuing year. And I am instructed by the Commissioners to state, that the sum of about 1,900*l.* will be required during that period. The Commissioners are unable to state the amount with certainty, because a considerable proportion of the yearly expense of this Commission depends on the amount required to defray the travelling expenses, and the subsistence allowances of the Assistant Commissioners; but judging from the experience of the past year, the Commissioners believe that the above Estimate will be found very nearly correct.

H. Waddington, Esq.,
Home Office.

I am, &c.
(signed) P. Selby, Secretary.

PENAL SERVITUDE ACTS.

Penal Servitude Acts Commission, 32, Abingdon-street, s.w.,
20 January 1863.

Sir,

In reply to your letter of the 16th instant, written by direction of Secretary Sir George Grey, and requesting me to prepare and transmit to you as soon as possible an estimate in detail of the sums which will be required to defray the expenses of the Penal Servitude Acts Commission of Inquiry during the periods mentioned below, I have the honour to state that so far as I am at present able to estimate them, the expenses will be:—

1st. From the 29th December 1862 (the date of the Commission) to the 31st March 1863:

	£.
Clerk, 12 weeks at 2 l. per week - - - - -	24
Messenger do. at 1 l. 5 s. per week - - - - -	15
Postage and small incidental expenses, about - - - - -	20
	£. 59

2d. During such period of the financial year, from the 1st April 1863 to the 31st March 1864, as the Commission may be in operation—

	£.
Secretary's salary - - - - -	300
Clerk and Messenger at the rates mentioned above.	
Postage and small incidental expenses, about - - - - -	30

The above statement does not include any allowance for the expenses of witnesses, or to be incurred in visiting any prisons. As no meeting of the Commission has yet been held, I am unable to form any Estimate that can be at all relied on, as to the probable amount of these expenses, which will depend on the course the inquiry may take. Perhaps they may be put at 200 l. in each period.

There will be in addition Messrs. Gurney's account for shorthand writing, the whole of which, I presume, will come into the 2d period.

And there will also be the cost of articles supplied by the Stationery Office and the Office of Works.

I am, &c.

H. Waddington, Esq., &c. &c. &c.
Home Office.

(signed) T. F. Kent, Secretary.

PATENT LAWS.

Patent Law Commission, 2, Victoria-street, Westminster,
24 November.

Sir,

IN answer to your letter of the 12th instant, requesting to know the date of the Letters Patent appointing this Commission, the probable duration of the inquiry, and to have an estimate of the expense of the Commission from its commencement to its termination, I beg to state, in addition to the information contained in my letter of the 14th instant, that the date of the Letters Patent is the 1st day of September 1862.

It is quite impossible at the present stage of the inquiry to state, even approximately, what will be the duration of that inquiry.

Owing to this difficulty, I can only give an Estimate of the probable expense of the Commission for a year from its appointment, consisting of the following items:—

	£.	s.	d.
Salary of Secretary - - - - -	300	-	-
Salary of Clerk - - - - -	100	-	-
Salary of Messenger - - - - -			
Miscellaneous Expenses - - - - -	£. 50.	to £. 100	

I have, &c.

The Under Secretary of State,
Home Department.

(signed) *Edward Lloyd*, Secretary.

(8.)

CHANCERY FUNDS.

Sir,

6, Adelphi Terrace, 21 November 1862.

IN reply to your letter of the 12th instant, I beg to state that the sum of £. 1,000 will probably be found sufficient to defray all the expenses of the Commission of Inquiry into the constitution of the Accountant General's department of the Court of Chancery, from its commencement to its termination.

Her Majesty's Commission was issued on the 15th of February 1861. The duration of the Commission was extended for one year, by a Commission issued on the 7th of February 1862.

I have also to state that Her Majesty's Commissioners have nearly completed the Inquiry committed to them, and trust, by the middle of December, to be in possession of all the evidence and information required by them before considering their Report.

The Inquiry will therefore probably be completed within the period limited by the Commission of the 7th of February 1862; or, if further time should be required for the preparation of the Report, an extension of three, or at the most of six months will be sufficient.

Yours, &c.

G. Clive, Esq., M.P., &c. &c. &c.

(signed) *E. Macnaghten*, Secretary.

F. P E E L.

-
- 1.—THE SUMS paid by INVENTORS in STAMP DUTY FEES, during }
the Year ending the 31st day of March 1863, amount to - } £. 109,819

-
- 2.—THE DUTIES of the LAW OFFICERS of *England* in respect of the Payment of
the Sum of 9,513 *l.* are as follows :—

The petition for the patent, with the declaration and provisional specification attached thereto, is referred to the law officer (Attorney and Solicitor General alternately) for allowance of provisional protection of the invention claimed.

The duty of the law officer is to read the provisional specification, with the title of the invention, and to ascertain whether the invention claimed is properly described therein ; also to ascertain that a single invention only is claimed, and whether the matter is legally a proper subject for a patent. Should the law officer find either provisional specification or title insufficient or defective, he directs the applicant to attend him and to amend. The provisional specifications are, for the most part, of considerable length ; each requires a careful perusal and consideration, each indicates a new invention, and each may be considered a case laid before counsel for his opinion.

The fee paid to the law officer on each reference is two guineas. The great number of applications for provisional protection, ranging from 3,200 to 3,300 in the year, accounts for the large aggregate sum.

The law officer receives a fee of one guinea on granting his warrant for the patent, a later stage in the proceeding.

The references being made to the two law officers alternately, the emoluments are equally divided.

3.—The DUTIES performed by the CLERKS of the LAW OFFICERS of *England* in respect to the Payment of the Sum of 850 *l.* are as follows:—

The fee of the clerk of the law officer is 5 *s.* on each reference for provisional protection.

The two clerks divide the emolument equally.

The duty of the clerk is to take charge of the papers referred, to summon the applicant, to attend the law officer when required, to copy the amendments made in the provisional specification, and to deliver the papers back to the Patent Office, with the certificate of the law officer, allowing or refusing provisional protection, appended thereto.

The above-mentioned fees are paid under the Act of 1852, and are ordered and appointed from time to time by the Lord Chancellor and Master of the Rolls (15 & 16 Vict. c. 83, s. 48).

The Order at this time in force is as follows:—

The Lord Chancellor (Lord Cranworth) and the Master of the Rolls, by the following Report, dated the 1st May 1853, for the reasons therein contained, reduced the scale of fees to be allowed to the Attorney and Solicitor General of England and their clerks:

Patent Law Amendment Act, 1852.—15 & 16 Vict. c. 83.

“ To the Lords Commissioners of Her Majesty’s Treasury.

“ We, the Right Honourable Robert Monsey Lord Cranworth, Lord High Chancellor of Great Britain, and the Right Honourable Sir John Romilly, Master of the Rolls, being two of the Commissioners of Patents for Inventions under the above-mentioned Act,

“ REPORT as follows:

“ Whereas the Right Honourable Edward Burtenshaw Lord St. Leonards, Lord High Chancellor of Great Britain, and the Right Honourable Sir John Romilly, Master of the Rolls, did by their Report of the 13th day of December last, addressed to the Lords Commissioners of Her Majesty’s Treasury, under the provisions of the 48th section of the said Act, appoint the following scale of fees to be paid to the law officers and their clerks, on passing Letters Patent for Inventions, until further orders:—

“ Four guineas to the law officer on each reference for provisional protection, under Section 8 of the Act.

“ Four guineas to the law officer on each reference of complete specification on application or warrant, under Sections 9 and 12 of the Act.

“ Ten shillings to the clerk of the law officer on each of the above references.

“ Two guineas to the law officer on each warrant for Letters Patent:

“ And the said Lord St. Leonards and Master of the Rolls did also, in their said Report, recommend that the Lord Chancellor and Master of the Rolls for the time being should meet at the end of every current year, and should report to the Treasury, from time to time, whether in their opinion it is expedient that any of the fees in the said Report recommended, or to be recommended by any future Report, should be varied or altered:

“ And whereas it appears to us, from the number of applications recorded in the Commissioners’ Office since the date of the said Report, that the fees payable to the law officer for the current year, upon the scale appointed by the said Report, will in the aggregate amount to a much larger sum than is reasonable and proper for the due remuneration of the said law officers and their clerks:

“ Therefore, we do hereby appoint that, from and after the 15th day of May instant, the following fees shall be paid to the law officers and their clerks until further order, in lieu of the before-mentioned fees, settled by the said former order; that is to say—

“ Two guineas to the law officer on each reference for provisional protection, under Section 8 of the Act.

“ Two guineas to the law officer on each reference of complete specification on application for warrant, under Sections 9 and 12 of the Act.

“ Five shillings to the clerk of the law officer on each of the above references.

“ One guinea to the law officer on each warrant for Letters Patent.”

The Lords Commissioners of Her Majesty’s Treasury, by Minute of the 17th May 1853, fully concurred in the propriety of reducing the scale of fees allowed to the law officers, as recommended in the above Report, and thereby sanctioned the same.

4.—The TREASURY MINUTE or other Authority under which the COMPENSATIONS were granted, and the DUTIES (if any) now discharged.

COPY of TREASURY MINUTE, dated 1 July 1853.

MY LORDS have under their consideration the following claims for compensations under "The Patent Law Amendment Act, 1852" (15 & 16 Vict. c. 83), for loss sustained by reason of the passing of the said Act, viz. :—

Mr. David Graham Johnstone, Clerk of the Patents to the Attorney and Solicitor General.

Mr. Moses Poole, late a clerk in the Patent Office.

Mr. John Richard Jobbins, Mechanical Draughtsman to the Inrolment Office in Chancery.

The Attorney General for Ireland.

The Solicitor General for Ireland.

The Patent Clerk to the Attorney General for Ireland (Mr. John Robinson).

The Assistant Patent Clerk to the Attorney General for Ireland (Mr. Thomas Lynch).

The Lord Advocate for Scotland.

The Clerk to ditto (Mr. George Calder).

Mr. Bartholomew M'Namara, } Copying and engrossing Clerks in the Crown
Mr. John Charles Walsh, } and Hanaper Office, Ireland.

My Lords read the said Act, by the 50th section of which it shall be lawful for the Commissioners of the Treasury to grant to such persons as may sustain any loss of fees, emoluments, or advantages by reason of the passing of the Act, such compensation as, having regard to the tenure and nature of their respective offices and appointments, such Commissioners deem just and proper to be awarded; and all such compensations shall be paid out of such moneys as may be provided by Parliament for that purpose.

And by the 51st section of the Act an account of all compensations granted shall be laid before both Houses of Parliament.

It appears that Mr. Johnstone was appointed to his office in the year 1839, and that he has continued, during the tenure of office by successive law officers of the Crown, without any fresh appointment from them; and it also appears that the predecessors of Mr. Johnstone continued in the enjoyment of the said office until death or resignation for a very long period of years; and under these circumstances, therefore, my Lords consider that he held his office upon such a tenure as to give him a just expectation that it would endure for his life.

By the Minute of the late Board of Treasury, 27th February 1852, No. 24038/51, a compensation allowance of 528*l.* per annum was granted to Mr. Johnstone for the loss of certain fees under the Act of 14 & 15 Vict. c. 82, (Appointment to Offices Act), being equal two-thirds of the amount of the loss sustained by him in consequence of the operation of that statute; and my Lords are of opinion that Mr. Johnstone's present claim may be fairly dealt with in the same manner, so long as he continues to hold the office of Clerk of the Patents, in respect of official appointments, &c.

The claims preferred by Messrs. Poole, Lynch, M'Namara, and Walsh may be properly determined upon the same principle as that of Mr. Johnstone.

The claim of Mr. Jobbins, being that of a draughtsman casually employed like any other tradesman, is wholly inadmissible.

The claims on the part of the Attorney and Solicitor General for Ireland, and the Lord Advocate for Scotland, and their clerks respectively, must be decided upon different principles; inasmuch as the income derived by those law officers from fees on patents of invention must be considered as one of the modes in which those officers were remunerated for their public services, and for the loss of practice at the bar, which they naturally sustained by their attendance in London during the sitting of Parliament, and at other times, and which the Crown must have been called upon to pay in the shape of salaries if such fees had not existed.

According to the accounts rendered by the law officers in Ireland and Scotland, according to an average of years prior to the passing of the Patent Law Amendment Act, 1852, the income derived to each officer upon fees on patents of invention was as follows, viz.:—

The Attorney General for Ireland -	-	£.114 per annum.
The Solicitor General for Ireland -	-	747 „
The Lord Advocate of Scotland -	-	815 „

And the clerks of the patents to the said officers, according to a similar average, have received the following amount for fees, viz.:—

The clerk to the Attorney General for Ireland -	-	£.1,053 per annum.
The clerk to the Lord Advocate for Scotland -	-	313 „

The late Attorney and Solicitor General for Ireland, and the clerk to the late Attorney General there, have put their claims under two heads,—

1st. A claim for the loss of the average annual income as above mentioned.

2d. A claim to be paid at the old rate of fees for patents of invention extended to Ireland under the 53d Section of the Act, instead of the scale of fees settled by the Lord Chancellor and Master of the Rolls, and sanctioned by the Treasury in December 1852.

So that the claims actually preferred by these officers are as follows:—

	£.	s.	d.
The Attorney General Napier, compensation at the rate of 114 <i>l.</i> a year, from 1st October 1852 to 12th January 1853 -	315	4	8
Fees according to the old scale of 10 <i>l.</i> 10 <i>s.</i> ; on 124 Reports for extension of patents to Ireland -	1,302	-	-
Fees on 84 Fiats, at 5 <i>l.</i> 10 <i>s.</i> 10 <i>d.</i> each -	465	10	-
	2,082	14	8

Amount directed to be paid by Mr. Edmunds out of fees of the New Patent Office, by Minute of 27th May 1853, upon Extension of Patents according to the rates of fees settled by the Lord Chancellor and Master of the Rolls -	567	-	-
---	-----	---	---

Difference claimed - - - £. 1,515 14 8

	£.	s.	d.	£.	s.	d.
Mr. Solicitor General Whiteside, computation as above -	211	7	-			
Fees as above on Reports, but not on Fiats -	1,302	-	-			
	1,513	7	-			
Amount directed to be paid by Mr. Edmunds upon extension of patents -	390	12	-			

Difference claimed - - - £. 1,122 15 -

	£.	s.	d.	£.	s.	d.
Mr. John Robinson, clerk to Mr. Attorney General Napier, compensation upon net annual value, as in the other cases -	297	19	10			
Fees on Reports -	1,302	-	-			
Fees on Fiats -	386	15	-			
	1,986	14	-			
Amount directed to be paid by Mr. Edmunds upon extension of patents -	651	-	-			

Difference claimed - - - £. 1,335 14 10

It appears that the late Attorney and Solicitor General for Ireland have already been paid, by the authority of the Treasury Minute of 27th May last, the following sums for patents extended to Ireland under the new Patent Act, viz.:—

Mr. Napier, from 1st October 1852 to 12th January 1853	£.567	-	-
Mr. Robinson, his clerk, for the same period -	651	-	-
Mr. Whiteside, for the same period -	390	12	-

And as these sums amount to much more than the ordinary fees upon patents would have realised to the said parties during the same period, according to the average of ordinary business in former years, and taking the whole period of ten months during which they held their offices, while the practice of patents was interrupted in consequence of the pending changes of the law, still it appears their net receipts for that time were considerably above the average. Their

Lordships

Lordships see no sufficient ground for directing any further payment to be made to them, either by way of compensation or by an increased rate of fees, beyond those sanctioned by the Lord Chancellor and Master of the Rolls.

Taking into consideration all the circumstances of the several cases, and having regard to the tenure and nature of the several offices and appointments before-mentioned, their Lordships deem it just and proper to award the following sums, by way of compensation, to the several claimants for the loss they have respectively incurred, until further directions, viz. :—

	Per Annum.
To Mr. David Graham Johnstone, the Clerk of the Patents to the Attorney General in England, to commence from the 1st October 1852, being equal to about two-thirds of his average loss - - - - -	£. s. d. 850 - -
„ Mr. Moses Poole, late clerk in the Patent Office, to commence from the 1st October 1852, being equal to about two-thirds of his average loss -	130 - -
„ The present and future Attorney General for Ireland, the annual average income hitherto derived by fees upon patents of invention - - -	1,200 - -
„ The present and future Solicitor General for Ireland, the like - - -	800 - -
„ The present and future Lord Advocate of Scotland, the annual average income hitherto derived by fees upon patents of inventions - - -	850 - -
„ Thomas Lynch, assistant clerk in the Patent Office, Ireland, to commence from the 1st October 1852, being equal to about two-thirds of his average loss - - - - -	50 - -
„ Mr. Bartholomew M'Namara, copying and engrossing clerk in the Crown and Hanaper Office, Ireland, the like - - - - -	16 - -
„ Mr. John Charles Walsh, copying and engrossing clerk in the Crown and Hanaper Office, Ireland, the like - - - - -	14 - -

The compensations are directed by the Act to be provided for by a Vote of Parliament, and an estimate has been prepared and laid before the House of Commons.

COPY OF TREASURY MINUTE, dated 15 August 1853.

MY LORDS have before them the claims of the following parties for compensation, &c., under the Act of the 15 & 16 Vict., cap. 83, called “The Patent Law Amendment Act of 1852,” for losses entertained by them under the operation of that statute, viz. :—

Mr. Thomas Stinton, Trainbearer to the Lord Chancellor of Ireland.

Mr. William Macdougall, Clerk to the present Attorney General for Ireland.

Mr. Peter Spalding Banks, Clerk to John Inglis, Esq., late Lord Advocate of Scotland.

Their Lordships advert to the Act in question, and also to the former Minutes of this Board, granting compensation to various other parties under the provisions of the same statute.

In accordance with the opinion of the Patent Law Commissioners (as stated by Mr. Leonard Edmunds, their clerk) upon the claims of the said parties, my Lords are pleased to award to Mr. Thomas Stinton the sum of 12*l.* per annum, to commence from 1st October 1862, and to continue until further directions.

The claims of Messrs. MacDougall and Banks are for the fees on the extension of patents to Ireland and Scotland respectively, under the 53d section of the statute, and not claims for annual compensations; and the Commissioners have stated the amount which is due to each person.

COPY OF TREASURY MINUTE, dated 10 March 1854.

MY LORDS have under their consideration the claim of Mr. Thomas Francis M'Coury, engrossing clerk in the office of the Keeper of the Rolls in the Court of Chancery, Dublin, for compensation for loss sustained by him under the Act of the 15 & 16 Vict. c. 83, called “The Patent Law Amendment Act, 1852.”

My Lords also resume the consideration of the claims of the Patent Clerk of the Attorney General for Ireland, and of the Clerk of the Lord Advocate for

Scotland, which were not included in the Minute of 1st July 1853, granting compensation to several parties under the same Act, but were reserved for further consideration.

With respect to Mr. M'Conry, it appears, according to a return made by the Deputy Keeper of the Rolls (Mr. M'Mahon), that his receipts during four years ended in 1852, for engrossing patents and matters connected therewith, amounted to from an average to 24*l.* 18*s.* 5*d.* per annum, the whole of which he has been deprived of by the operation of the statute; and adverting to the decision made by the Minute of 1st July 1853, in respect of certain engrossing clerks in the Hanaper Office, Ireland, for similar losses, their Lordships are pleased to grant to Mr. M'Conry a compensation allowance of 16*l.* per annum, being equal to about two-thirds of the emoluments of which he has been deprived, to take effect from the 1st day of October 1852, and to continue until further directions.

With respect to the cases of the Clerk to the Attorney General in Ireland, and the Clerk to the Lord Advocate of Scotland, it would appear that the Lord Advocate's clerk formerly realised 313*l.* a year from the fees on patents in Scotland, which he has been entirely deprived of.

The Clerk of Patents to the Attorney General in Ireland formerly realised upwards of 1,000*l.* a year by the fees on patents, the appointment having been given to an attorney of Dublin, and not to the immediate or body-clerk of the Attorney General; and it is stated by the Patent Law Commissioners, in their letter of the 5th April 1853, No. 7248, that the Attorney General for Ireland will be obliged to appoint some person competent to make out various documents connected with the Government of Ireland upon which no fees are payable, but for which services the fees formerly received upon patents were deemed to be a sufficient remuneration; and the Commissioners therefore recommend that each clerk to the Attorney General should be paid such fixed sum as the Lords of the Treasury may deem reasonable.

The Commissioners also recommend that a reasonable fixed sum should be paid to the Clerk of the Lord Advocate, for the loss he has sustained by the abolition of the fees on patents.

Under all the circumstances, therefore, my Lords are pleased to award the sum of 300*l.* per annum, to be paid to the present and future clerks of the Attorney General for Ireland, and the same amount to the present and future clerk of the Lord Advocate for Scotland.

Write to the Paymaster General, and desire that he will pay to Mr. George Calder, the clerk to the Lord Advocate for Scotland, without account, the sum of 300*l.* for one year, from 1st January 1853 (when the present Lord Advocate came into office) to the 31st December 1853, charging such payment to the Grant of Parliament for this service.

COPY OF TREASURY MINUTE, dated 1 June 1855.

MY LORDS have before them the claims of the following parties for compensation, under the Act 15 & 16 Vict. c. 83, called "The Patent Law Amendment Act of 1852," for losses sustained by them in consequence of the operation of that Act, viz.:—

Mr. James Pringle Halley,	} Engrossing clerks in the Office of the Director in Chancery, Scotland.
Mr. David M'Niellie,	
Mr. John M'Niellie,	
Mr. Hugh Home,	

My Lords advert to the Act in question, and also to the former Minutes of this Board granting compensation to various other parties, under the provisions of the same statute.

The claims in question have been referred to the Patent Law Commissioners, who have stated that they consider all the parties, except Mr. Hugh Home, to be fairly entitled to compensation; but as it is stated by the Director in Chancery that, in consequence of the retirement of one of the clerks in his office, Mr. Home is now in receipt of emoluments which exceed the amount of loss sustained by him in consequence of the passing of the Act, my Lords do not deem him to be entitled to any compensation.

The emoluments of the undermentioned persons, according to statements laid before the Board, verified by the Director in Chancery, are as follows:—

		Per Annum.		
Mr. Halley, for engrossing patents, according to an average of three years, from 1st October 1850 to 1st October 1853		£.	s.	d.
1853		-	46	-
Mr. David M'Niellie, the like		-	33	16
Mr. John M'Niellie, the like		-	15	12

In the former similar cases, their Lordships have been pleased to grant compensations to the extent of two-thirds of the annual amount of the emoluments which the parties have sustained the loss of; and in the present instance, my Lords award compensation to the same extent, viz. :—

Mr. Halley	-	-	-	-	30l.	per annum.
Mr. David M'Niellie	-	-	-	-	22l.	„
Mr. John M'Niellie	-	-	-	-	10l.	„

—the said compensation to take effect from 1st October 1853, when their emoluments were abolished by the operation of the before-mentioned statute, and to continue till further directions.

5.—The DUTIES performed by the CLERK of the COMMISSIONERS and CHIEF CLERK respectively.

The Act of 1862 came into operation 1st October 1852, and Lord Chancellor 15 and 16 Vict., St. Leonards, Sir John Romilly, Master of the Rolls, Sir Frederic Thesiger, c. 83. Attorney General, and Sir Fitzroy Kelly, Solicitor General (the first four Acting Commissioners of Patents) brought the Act into operation.

Under the provisions of the Act, three separate offices for the passing of patents might have been constituted or continued in operation—viz., the ancient office of the Clerk of the Patents, an office appointed by the Crown (Great Seal Patent Office); the office of the Commissioners of Patents (a new office); and the office of the Attorney General, for making the warrants (an old office). The above-mentioned Commissioners, however, upon consideration, decided that one office should be constituted for the whole business of passing the patents; and accordingly they ordered the office of the Commissioners of Patents and the Warrant Office of the Attorney General to be combined with the Great Seal Patent Office.

They appointed the Clerk of the Patents for the time being to be the Clerk of the Commissioners, thereby merging the office of Clerk of the Commissioners.

The whole duties, responsibilities, and superintendence of the Patent Office, Public Library, and Museum is consequently in the Clerk of the Patents.

The Duties performed by the Chief Clerk.

He receives all papers necessary for the application for patents, examines the same to see they are in accordance with the rules and regulations of the office, and refers them to the Attorney or Solicitor General alternately.

He issues the certificate of the record of the leaving of the above documents in the office, also the certificate of the allowance of provisional protection by the law officer to the applicant or his agent.

He receives from the applicant or his agent the necessary instructions, in writing or otherwise, as to the various proceedings on the passing of the patent through the office, and the amount of stamp-duties thereon; and issues stamps on such proceedings, pursuant to the Act, and takes the receipt of the applicant or his agent for the same.

He receives the specifications filed in pursuance of letters-patent, and endorses the same with the date of the filing thereof.

He keeps minutes of the whole proceedings in the several stages in obtaining the patent, from the first deposit of papers in the office to the filing of the final specification.

He receives all deeds for registration affecting the proprietorship of letters-patent pursuant to the 35th section of the Act, gives a receipt for the same, and returns them to the parties producing his receipt, with a 5*s.* stamp attached thereto, of the registration thereof; and takes their receipt for the stamp and return of the deed, and files the same.

He attends all applicants in searching the various records in the office, and answers all inquiries as to proceeding for patents.

He receives the letters-patent stamped with the 50*l.* and 100*l.* stamp-duty, extending the same to seven and fourteen years, gives a receipt for the same, and enters such, by the number of the patent and name of the party producing the same, so stamped in the records of the office.

He is the cashier of the office, paying all the incidental expenses therein, under the superintendence and direction of the Clerk of the Patents.

6.—THE FORMAL MEETINGS of the Commissioners of Patents under the Act (the whole four attending together) were four, during the year ending the 31st March 1863.

The Clerk of the Patents being in constant communication with the Lord Chancellor, Master of the Rolls, and the law officers, formal meetings of the whole four Commissioners together are thereby often rendered unnecessary.

6 July 1863.

Clerk of the Patents.
